

# Opportunities in Renewable Energy for local communities

A **FREE** half day seminar aimed at informing representatives of Parish and Town Councils, Neighbourhood Planning groups and other interested parties in Dorset.

*How can local communities engage with renewable energy developers?  
What support is available to local communities to do this?  
What are the options for community owned renewables?  
How does renewable energy fit into planning?*

Find out the answers to these and your questions on renewable technologies with presentations by:

Pete West	Renewable Energy Development Officer	Dorset County Council
Representative TBC	Planning Policy Officer	North Dorset District Council
Julian Brooks	Business and Strategy Manger	Community Heat and Power

There will also be presentations by renewable energy developers and regional support organisations as well as plenty of opportunities to ask questions about this developing subject.

Registrations can be made by using the link below:  
<http://dorsetreseminar.eventbrite.com>

Or by contacting Paul McIntosh, Sustainability Officer for North Dorset District Council on 01258 484019 – email
